Vaccine Clinics at Portage County Health District

Vaccines are one of the safest and most effective ways to protect yourself, your family, and your community from serious illnesses such as measles, whooping cough, shingles, and more. They help your body learn to fight off infections without making you sick.

Thanks to vaccines, we've seen dramatic declines in many once-common and dangerous diseases. However, protection only works if we stay up to date.

The Portage County Health District is committed to keeping our community healthy by providing access to essential vaccines. Our vaccine clinic is open every **Wednesday from 8:30 AM to 4:00 PM** at **999 East Main Street in Ravenna**.

Walk-ins are welcome every Wednesday. No appointment is necessary, but you may call **330-296-9919** to schedule in advance or to check your immunization records.

Our experienced public health nurses take time to answer your questions, explain which vaccines are recommended based on age and health status, and ensure you feel comfortable throughout your visit.

We offer vaccines for children and adults, including:

- MMR (measles, mumps, rubella)
- Tdap and DTaP (tetanus, diphtheria, pertussis)
- Chickenpox
- Hepatitis A and B
- Flu and COVID-19
- Meningitis and HPV
- Shingles and pneumonia for older adults

Affordable and Accessible Care

We accept most major insurance plans and offer programs for individuals who are uninsured or underinsured. For those without insurance, there is a \$10 administration fee per vaccine. No one will be turned away due to an inability to pay.

We also provide all required school vaccines to help ensure your children are protected and ready for the school year.

For more information, please visit our website: <https://portagehealth.net/our-programs/nursing/immunizations/>

Let's keep Portage County healthy and strong, one vaccine at a time.
