information or data. Use computers and computer systems (including hardware and software) to conduct inspections and field work, enter data, process and summarize information, write violations and issue notices, and write reports, create presentations. Undertake enforcement actions as needed.

**Communicate** with supervisors, peers, or subordinates and people outside the organization, representing the organization to customers, the public, government, and other external sources. Assist in educational activities. This information can be exchanged in person, in writing, or by telephone or e-mail, and public presentations.

**Review plans and designs** for facilities and properties, as applicable, to ensure compliance with statutes and regulations. Perform **other** environmental public health related activities as necessary.

**Organizational Duties:**

Participate in quality improvement team projects and quality improvement training initiatives as applicable/required and incorporate the principles of quality improvement into daily work activities. Other duties as assigned. Please note this job description is not designed to cover or contain a comprehensive list of activities, duties or responsibilities that are required of the employee for this job. Duties, responsibilities, and activities may change at any time with or without notice.

**Minimum Qualifications:**

- Bachelor's degree in environmental health, environmental science, biology, or a closely related field.
- Certificate of registration as a Registered Environmental Health Specialist or ability to obtain an Environmental Health Specialist in Training (EHSIT) credential per Ohio Revised Code Chapter 4736.
- Valid driver's license, proof of insurance and reliable transportation
- Ability to pass drug screening and background check.
- Must be able to have regular and reliable attendance.
- Operate a motor vehicle as needed to perform the essential functions.

**Skills/ Abilities:**

- Excellent verbal and written communication skills.
- Excellent interpersonal, leadership, and organizational skills.
- Creative and effective problem-solving skills.
- Ability to accept constructive feedback and to work collaboratively with employees, management, and other stakeholders.
- Proficiency with Microsoft Office Suite
- Ability to prepare meaningful, concise, and accurate reports.
- Ability to maintain confidentiality in accordance with laws and agency policies.

**Pre-Employment Testing Requirements:** Criminal Background Check, MVR, Pre-employment Drug Testing

**Work Environment:**

While performing the duties of this job, the typical work environment will consist of substantial field work as well as an office setting. The various work sites could include uneven terrain, potential exposure to inclement weather, extreme temperatures, insects, wildlife, unpleasant smells or odors, excessive levels of dust and dirt or exposure to fumes, airborne particles, pesticides, toxins, raw sewage and other elements of outdoor work. The general office setting located in the Health District requires sedentary to light work which may include walking, climbing, reaching, and talking. Must be capable of lifting 30 pounds. The noise level in the work environment is usually quiet to moderate.

**Apply:**
